Art Unit: 3654

The following is an examiner's statement of reasons for allowance:

Claims 1-15 are allowable over the prior art of record because the prior art of record does not teach the use of both passive (claim 1, lines 13-17) and active heave (claim 1, lines 18-22) assemblies. U.S. Patent no. 6,082,947 to Adamson teaches the use of either an active or passive heave assembly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Emmanuel M Marcelo whose telephone number is 703-305-6597. The examiner can normally be reached on Monday - Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Katherine Matecki can be reached on 703-308-2688. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
